

I think the people who are trying to stop xm radio are despicable.and they should not be so greedy and remember that a little competition never hurt any one.

I pray you will reject NAB'S petition 04-160.

unless they are willing to reimburse all the people that have the xm in their homes and cars,for the cost to desposing of the equitment. Some how I don't see that happening.

Xm radio weather will help people to get out of harms way.

Is the NAB willing to except the responsibility for every life that is not saved because WEATHER INFO was not on their xm radios?

CAROL CLARK,BAXTER TN.
